AFGE LOCAL 2505 HELPS LOCAL EMPLOYEE

A former SSA employee covered by FERS filed for disability retirement. Her last day on the job was 04/07/87. She had annual and sick leave till 05/25/87. Her FERS application was held by the SSA Regional Office until 12/31/88 because the outcome of her Social Security disability application was needed. (WRONG: The FERS requires filing with SSA but no offset until the second year of receipt of benefits under FERS.) The Union was asked for assistance when the employee had heard nothing from OPM and her Local Management made no inquiry for her. The SSA Regional Office sent the claim to OPM in 01/88 but by then the medicals were outdated. The employee was requested to take new physicals and forward to OPM, which she did. They were sent by Federal Express and lost by OPM. (We were able to track them right to OPM's mailroom.) The employee had retained copies, so immediately forwarded those. She was given an allowance in one hour of receipt of the medicals. This employee finally received an initial payment by OPM in 04/88 -- though it was not correct. She got her correct monthly amount and back pay in 11/88.

This employee had not been advised by her local SSA office when she could enroll for health insurance and life insurance when she converted from a temporary to a full time employee. So she was denied her health insurance because she had not had it for five years prior to retirement. We filed an appeal of this decision with the OPM HI branch who gave her the health insurance coverage based on administrative error. The employee was then informed she owed the U.S. Government for back health insurance premiums. We filed waiver which was approved in 12/88. The employee cannot file any health insurance claims because OPM has failed to inform the insurance company of her insurance coverage.

The employee was advised in 01/89 that she does not have any life insurance coverage. We are now filing an appeal of that decision which we feel certain to win. However, the employee will not owe money because OPM has been withholding premiums for the life insurance coverage she does not have. We expect to have this employee receiving the proper annuity amount with correct health insurance and life insurance coverage by 01/90, just two years and eight months after she retired.

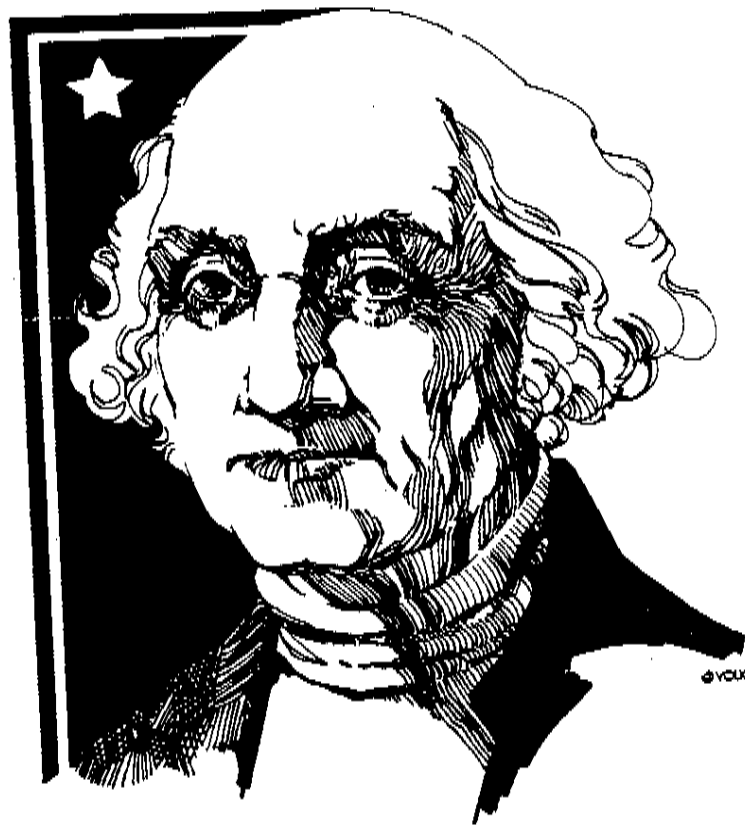

AFGE APPLAUDS SENATE INTRODUCTION OF HATCH ACT REFORM

Saying he is "excited and optimistic" about the prospects for Hatch Act reform, union president John N. Sturdivant applauded the efforts of Senators Dennis DeConcini (D-AZ), John Glenn (D-OH), and David Pryor (D-AR) in introducing legislation to clarify the confusing and outdated Hatch Act.

"Legislation to release the political binds on government workers would go far toward improving the morale of a workforce that has withstood eight years of paltry pay raises, humiliating random drug testing, and slashed benefits," Sturdivant said.

Pledging the support of AFGE's entire membership, Sturdivant reaffirmed his union's commitment to remove the yoke of second-class citizenship from all federal workers imposed by the Hatch Act and urges President George Bush to "reassess the Reagan Administration's extreme and unreasonable opposition to this legislation."

"AFGE believe the time is right for this legislation to move swiftly through Congress," stated Sturdivant, "since a similare measure last year received overwhelming support when passed by the House of Representatives and had the support of a majority of the Senate."
